SUMMARY

Pre-service Informatics teacher (PPG Prajabatan, Universitas Pendidikan Indonesia) with 6 years of teaching, mentoring, and lecturer-assistant experience across elementary, high school, and university levels. Currently teaches Informatics to Grade X students at SMA Negeri 24 Bandung under Kurikulum Merdeka. Information Systems graduate (GPA 3.97/4.00) skilled in Python, SQL, Power BI, and Looker Studio, with a record of turning programming and data concepts into clear, hands-on lessons.

EXPERIENCE

SMA Negeri 24 Bandung — Practicum Teacher, Informatics, Bandung | 2026 – Present
- Teach Informatics to Grade X students (Phase E) across 3 practicum classes under Kurikulum Merdeka, covering Python programming and computational thinking.
- Develop modul ajar, student worksheets (LKPD), and assessments, including a 10-question sorting-algorithm post-test mapped to Bloom's C2–C4.
- Administer a diagnostic assessment for Class X-J (42 students) to map learning needs before planning lessons.
- Design an inquiry-based computational thinking lesson (90 minutes, with pre-test and post-test) for about 50 students in 8 groups.

Self-Employed — Freelance Data Analyst, Remote, Indonesia | 2024 – Present
- Deliver data analysis and dashboard projects for clients since 2024 using 4 tools (Python, SQL, Power BI, Looker Studio), translating business questions into decision-ready dashboards.

SMK Plus Qurrota'ayun — Community Service Teacher (PPG), Garut | 07/2026
- Led Scratch programming-logic sessions for 29 vocational school students.
- Recorded an average score increase from 44.14 (pre-test) to 80.00 (post-test), N-Gain 0.65 (moderate).

Taman Ilmu — Volunteer Mathematics Teacher, Grades 1–3, Indonesia | 09/2025 – 02/2026
- Taught mathematics to 3 elementary grade levels (Grades 1, 2, and 3) for 6 months, using fun, activity-based lessons to build foundational numeracy.

STT Terpadu Nurul Fikri — Lecturer Assistant, Business Intelligence, Jakarta | 02/2024 – 12/2025
- Guided university students for 23 months through Business Intelligence concepts and dashboard projects in 2 platforms, Power BI and Looker Studio.
- Graded assignments against rubrics, gave feedback on visualization quality, and prepared lecture slides.

NF Academy — Digital Marketing Mentor, Indonesia | 02/2024 – 07/2024
- Mentored digital marketing mentees across 6 months through structured learning plans, verifying progress through logbooks and facilitating sharing sessions.

STT Terpadu Nurul Fikri — Lecturer Assistant, Statistics and Computer Mathematics, Jakarta | 09/2023 – 01/2024
- Mentored students on Computer Mathematics and Statistics topics over 5 months, graded assignments against rubrics, and compiled lecture materials.

STT Terpadu Nurul Fikri — Lecturer Assistant, Statistics and Probability, Jakarta | 02/2023 – 07/2023
- Coached learners through Probability problem sets for 6 months, designed grading rubrics, and led lecture sessions on statistical concepts.

STT Terpadu Nurul Fikri — Mentor, Jakarta | 09/2020 – 04/2022
- Ran learning sessions and shared knowledge with mentees for 20 months through the Character Development Coordinating Body.

SKILLS

Teaching and Curriculum: Kurikulum Merdeka, lesson planning, learning materials (modul ajar, LKPD), student assessment and grading (diagnostic, formative, summative), Bloom's Taxonomy, Problem-Based Learning, inquiry-based learning, Understanding by Design (UbD), differentiated learning, computational thinking, classroom management
Programming: Python, SQL, HTML, CSS, JavaScript, Bootstrap, Scratch, Blockly
Data Analysis and Visualization: Power BI, Looker Studio, Microsoft Excel, Google Sheets, Google Colab
Learning Technology and Design: Quizizz, Mentimeter, Google Workspace, Canva, CapCut, Figma
Collaboration: Notion, Trello

EDUCATION

Universitas Pendidikan Indonesia — Pre-Service Teacher Professional Education (PPG Prajabatan), Informatics, Bandung | 02/2026 – Present

STT Terpadu Nurul Fikri — Bachelor of Information Systems, Jakarta | 09/2019 – 09/2023

- GPA: 3.97/4.00

PROJECTS

- Flight Ticket Price Prediction: first-author article comparing 4 machine learning models (Linear Regression, KNN, MLP, Random Forest); Random Forest performed best (R^2 0.9849, RMSE 2783.27, MAPE 0.0704).
- Power BI and Looker Studio Learning Module: created a study module with sample dashboards in 2 platforms for university students.
- Digital Business Study Program Evaluation Dashboard: built a Looker Studio dashboard for the Head of Study Program covering 90 respondents.
- Chamber of Desire: built a flower arrangement ordering website with 3 technologies (HTML, Bootstrap, JavaScript).
- Worklance: produced 3 deliverables (pitch deck, Figma UI/UX design, product video) for a job-search platform concept for students and fresh graduates.
- X-Wallet: designed a digital wallet application as System Analyst in a 4-month Agile project (10/2021 – 01/2022).

CERTIFICATIONS AND TRAINING

- Basic Data Visualization, Dicoding Indonesia
- Foundation of AI and Life Skills for Gen-Z, Orbit Future Academy (Kampus Merdeka), 02/2022 – 07/2022
- Digital Marketing Academy, NF Computer (Kampus Merdeka), 08/2022 – 12/2022

ORGANIZATIONS

- Deputy Chair II, Student Representative Council (DPM), STT Terpadu Nurul Fikri, 05/2022 – 04/2023
- Secretary, Ikatan Mahasiswa Beastudi, STT Terpadu Nurul Fikri, 03/2022 – 04/2023
- Head of Institutional Division III, DPM, STT Terpadu Nurul Fikri, 03/2021 – 03/2022

LANGUAGES

Indonesian (native), English (intermediate), Mandarin (beginner)
